Jay Miller gave presentation on the timeline and history of the changes for sight preparation Jay spoke to the major changes for the multipurpose pad space and its current location related to utilities.

Mike mentioned adding a dry hydrant where the ice-skating rink will go making it easier for volunteers to pull water. This will help when flooding the ice rink during the winter.

Jay went on to talk about the process of landscaping Lakeside Park and the seasonal flowers and planting that will be utilized throughout the park. Jay then discussed pricing for pavers versus asphalt going down the entirety of the walkway towards the pond.

Anne spoke to the current design of the park and how the town will take care of the pavers during snowmobile season.

Jay spoke to the current timeline and when the bidding process might take place. The project should still be on track for construction after July 4th.

Bill Hawkins brought up a question regarding the dry hydrant and if we could utilize a regular hydrant as opposed to the dry hydrant. Noah stated he will contact the Water Department and ask them if this is feasible.
